

## MRI Safety Questionnaire

If you answer yes to any of the following questions, it may not be safe for you to have a MRI scan and you should therefore inform your doctor for further information.

1) Do you have a pacemaker?	Yes / No
2) Have you ever had an operation on your heart?	Yes / No
3) Have you ever had an operation on your head?	Yes / No
4) Have you ever had an operation on your spine / back?	Yes / No
5) Have you had any operation that involved an implant?	Yes / No
6) Have you ever had an injury to your eye?	Yes / No
7) Do you have any metallic, false teeth?	Yes / No
8) Have you ever been injured by a metallic object?	

### Female Patients

1) Are you pregnant?	Yes / No
2) Is there any chance you could be pregnant?	Yes / No
3) Are you breastfeeding?	Yes / No
